

*thank you*

*My CCO fellowship with Pitt student-athletes officially ends May 31st*

This past year in Pittsburgh has been unbelievably transformative. I met God's mercy to lead a Bible study for the first time, lead 30+ students through identity in Christ, meet consistently with female student-athletes, and grow in community and friendship with my housemates Lois and Levi. Purpose or calling is not just a place - it is a willingness to let the same God who created the entire universe from nothing (and us from dust) to guide and cultivate us for His glory and our good to experience His blessing to love Him, to love others, and love ourselves.

Keep praying for this generation's students to experience, receive, and respond faithfully to the unfailing love of God. *Jesus changes EVERYTHING, and campus ministry is a powerful glimpse into transformative relationships that reflect the forgiving, patient, firm, and loving heart of God.*

thank you church for your generosity, prayers, and support this past year! This ministry would not have been possible or impactful without you or my monthly meetings with Rev. Black! **LIFE CHANGING!**
